

On The Trail of Trash 2007

Neither soggy conditions, snakes, nor poison ivy could deter the 221 volunteers who cleaned, pruned, and beautified seven park sites. Volunteers were joined by Keep Houston Beautiful, The Park People, Houston Parks and Recreation Department, and official program sponsors ExxonMobil and Shell Oil Company to spruce up 10 trails and remove 186 bags of litter and debris during the day-long event. The goal of this event was to enhance the overall user experience at parks throughout the city, and the results were spectacular.
